

LABYRINTH FILTER SYSTEMS WITH STAINLESS STEEL GUARD AND RELATED VENTILATION SYSTEMS IP 56

The filtering systems completely in stainless steel AISI 304L (Wnr 1.4307) with labyrinth spray protection device are mounted on the outside of the structure, allowing the replacement of the filtering grid without entering the panel.

They can all be coupled with the MPGAMMA ventilation systems (the fans must be mounted inside the panel).

They are supplied in kits with drilling template and, on request, drilling on the hardware is made at the factory.
